

VENDOR: Louisiana Accessible Educational Materials

CONTACT FOR LOUISIANA: Robin King, (337) 254-9396, robin@ssdla-aem.org

VENDOR DESCRIPTION

The Louisiana Accessible Educational Materials (LA-AEM) project is managed by Louisiana's Special School District. Our regional facilitators have over 100 years of combined experience in supporting students with disabilities in accessing high-quality instruction through professional development, assistive technology, and providing accessible educational materials. This program has assisted hundreds of teachers, service providers and parents of children with diverse needs in the selection and use of assistive technology. We are available to provide a customized solution to assist you in providing access to the curriculum for students who require assistive technology through training and ongoing coaching sessions. These sessions can be delivered in person or virtually.*

SAMPLE PARTNERSHIP SERVICES

Title of Service	Description	Area of Specialized Support	Method	Initial Support	Coaching Support	Early Childhood Support	Max # of Participants	Cost
Are Your Students Accessing the Curriculum Effectively with Assistive Technology? (Leadership Accessibility Toolbox)	This package will focus on supporting district level teams to improve the process of assistive technology decision-making for both traditional and distance learning models. With our leadership accessibility toolbox guidance, students with disabilities can successfully access grade level content by removing barriers with the use of informed decisions on accessible materials and technology.	Assistive Technology	f2f, Virtual, Blended	✓	✓		30	\$200/hr
Are you planning for the success of your students using accessible materials and technology? (Teacher's Accessibility Toolbox)	This comprehensive package will support school system teams by increasing accessibility to the curriculum with a focus on building teacher capacity to leverage annotated lesson plans and the use of AT in the delivery of high-quality instruction as it relates to students with disabilities. Our teacher's accessibility toolbox package will focus on ensuring access to grade level curriculum and mastery for students with disabilities whether in the classroom or in a distance learning environment.	Assistive Technology	f2f, Virtual, Blended	✓	✓		30	\$200/hr
Giving All Students a Voice - Using AAC to Access the Curriculum	This comprehensive package will support school system teams to address the use of communication devices to provide access to on grade level content for students with disabilities in the traditional classroom or in a distant learning environment. Examples of low tech, mid tech and high tech supports for users of communication devices will be covered. These systems can be implemented to increase access to high-quality curriculum across settings.	Assistive Technology	f2f, Virtual	✓	✓		30	\$200/hr
AT and Ed Tech to Support Curriculum Access and Meaningful Engagement	This comprehensive package provides school system teams with professional development and job embedded supports, anchored in evidence-based adult learning strategies, that focus on enabling student access to grade level content by utilizing the accessibility features of technology. Effectively implementing the customized features of technology currently available in your schools will promote meaningful engagement with high quality curriculum and are essential to independence, participation, and progress for students with disabilities.	Assistive Technology	f2f, Virtual, Blended	✓	✓		30	\$200/hr

*Our device lending library features examples of low, middle and high tech assistive technology ranging from writing aids and magnification devices to eye-gaze communication systems.

**Pricing ranges based on the number of trainings and job-embedded coaching hours.

***Each service listed includes a pre and post assessment of district needs, up to 5 training events, and up to 90 hours of job-embedded coaching. For more information about Partnership Services, including customized packages, contact Robin King.
